

## Woodland Camp First Responders

### Join the Woodland Camp First Responders

The board of Directors voted to form a First Responder group at the December Association meeting. Owen Burgin Volunteered to initiate the formation of this group. The first step in this process is to see if any Association members are interested in volunteering their time to provide basic first aid to those in need. There is an application on the Web site. If you are interested, please fill it out and submit it. The application must be filled out completely if any areas are not filled out and signed it will not be accepted.

Owen has been working with the Harrison County Emergency Management Director as well as the 5 local Fire Departments. He will work with them to establish protocols and procedures that the 1<sup>st</sup> Responders will perform. He will post more information as it is available. There will be an information ZOOM meeting planned in the coming days.

If you have an interest in helping others in a time of need then please consider signing up. There will be a few meetings that you have to attend and of course a willingness to drop everything and respond to calls for help. If you have first aid training and or a medical background that will be extremely helpful however there are many roles you can fill even if you do not have any medical training.

If you have specific questions, please email Owen and he will answer them in a timely manner. Have a great winter and be safe!
